EDUCATION

UW-MADISON

BS IN MOLECULAR BIOLOGY

May 2015 | Madison, WI

Cert. in Chinese Professional Comm.

Dean's List (four semesters)

Cumulative GPA: 3.42 out of 4

WAUSAU WEST

HIGH SCHOOL DIPLOMA

May 2011 | Wausau, WI

Valedictorian

Outstanding English Student

COURSEWORK

SELF-STUDY

HarvardX Intro to Computer Science

Michael Hartl's Ruby on Rails Tutorial

Udacity's Developing Android Apps

Andrew Ng's Machine Learning

UNDERGRADUATE

Data Structures and Algorithms

Computer Engineering

Artificial Intelligence

SKILLS

PROGRAMMING

Proficient with:

JavaScript • React

HTML • CSS • SQL

Rails • Java • Git

Familiar with:

C • Python • Shell

Have dabbled in:

Julia • Android • \LaTeX

LANGUAGES

Fluent

English • Cantonese

Competent:

Mandarin • Spanish

EXPERIENCE

BAOZI TUTORS | CO-FOUNDER

Oct 2017 – Present | Hong Kong

- I built this web-based tutor-matching platform with my co-founder using **Ruby on Rails** and a test-driven, iterative workflow. I'm currently in the process of making the app **PWA-compliant** to expand our user base.
- I'm building the whole thing again using the **MERN** stack to get more familiar with **React** and **Node**.

OPTIMIZE YOUR GROW | CONTRACTOR

Fall 2017 | Oakland, CA

- Requests were timing out because the server was busy solving an optimization problem. Despite a dearth of resources detailing how to get Julia to play nice with Heroku, I resolved the issue and learned a ton about **Heroku's process model**, multithreading, and **task queues**.
- I also learned the value of communicating early and often - both in code and in customer relations - and gained a better appreciation for the Minimum Viable Product. The difference between 'good enough for now' and 'perfect a while later' is money my clients could be making.

KEYSTONE/FREELANCE | MATH AND BIOLOGY INSTRUCTOR

Oct 2015 – Sep 2017 | Hong Kong

- I taught ACT/SAT Math, SAT Biology, AP/IB Biology, and linear algebra.
- I made a **WordPress** site to advertise my services and later migrated it to a **page** on my portfolio site. I built the page from scratch using HTML5, CSS3, and JS. I used Bootstrap and media queries to make it responsive and painstakingly took its **PageSpeed Insights** score from 43 to 100/100, learning tons about asset-optimization, design standards, **CDNs**, and cache-control in the process.
- I was accountable to anywhere from 10 to 20 individual clients per month.

RESEARCH

UW-MADISON DEPT. OF PSYCH. | UNDERGRADUATE RESEARCHER

Jan 2014 – Aug 2014 | Madison, WI

Assisted **Stacey Kigar** and **Prof. Tony Auger** with data collection and analysis to study epigenetic mechanisms using the central nervous system of *Rattus* spp. as a model.

Wrote a **Python script** to perform calculations and expedite cDNA synthesis.

AWARDS & ACCOMPLISHMENTS

2014	Top Third	CS540 Intra-Class Nannon Bot Tournament
2011	National	National AP Scholar
2011	State	Wisconsin Academic Excellence Award
2011	2 nd /50	Wisconsin Science Olympiad Tournament
2011	State	DAR Good Citizens Award & Scholarship
